

# SmokeESC REP-3000

## Innovation Vent Bus Repeater

### Device description

REP-3000 allows you to double the range of the Innovation BUS connection while maintaining full galvanic separation. Thanks to the REP-3000, communication cables can be routed anywhere, regardless of the distance.

### Features

#### Signal regeneration

REP-3000 allows you to fully regenerate the Innovation BUS signal and double its range. It is possible to use several repeaters in one Innovation BUS.

#### Easy installation

Plenty of space in the housing and glands allow for quick and easy installation.

#### Factory configuration

REP-3000 is factory-configured to work and does not require additional configuration.

### Technical parameters

PARAMETER	VALUE
Supply voltage	24 V DC
Power consumption	typ. 70 mA, $I_{MAX} < 200 \text{ mA}$
Operating temperature	from -25 °C to +50 °C
Enclosure protection rating	IP54
Dimensions	170x250x90 mm
Weight	750 g
